This quarterly journal provides an international forum for the discussion and rapid dissemination of research findings in psychology relevant to education. The journal places particular emphasis on the publishing of papers reporting applied research based on experimental and behavioural studies. Reviews of relevant areas of literature also appear from time to time. The aim of the journal is to be a primary source for articles dealing with the psycholological aspects of education ranging from pre-school to tertiary provision and the education of children with special needs. The prompt publication of high-quality articles is the journal's first priority. All contributions are submitted 'blind' to at least two independent referees before acceptance for publication. The journal is indexed/abstracted in the following periodicals: *International Bibliography of Periodical Literature; International Bibliography of Book Reviews.*

Editorial correspondence, including manuscripts for submission and books for review, should be addressed to either of the Joint Editors of *Educational Psychology:* Dr Richard Riding, School of Education, University of Birmingham, P.O. Box 363, Birmingham B15 2TT, United Kingdom, or Professor Kevin Wheldall, Macquarie University Special Education Centre, Macquarie University, Sydney, NSW 21009, Australia. Details concerning the preparation and submission of articles can be found on the inside back cover of each issue.

Business correspondence, including orders and remittances relating to subscriptions, back numbers, offprints an advertisements, should be addressed to the publisher: Carfax Publishing Ltd, P.O. Box 25, Abingdon, Oxfordshire OX14 3UE, United Kingdom.

The journal is published quarterly, in March, June, September and December. These four issues constitute one volume. A Volume contents and Author index is bound in the December issue.
